***** ATTENTION FACULTY

The Council for International Exchange of Scholars (CIES) has announced the opening of competition for the 1986-87 Fulbright scholar awards in research and university lecturing abroad.

The awards for the 1986-87 academic year include 300 grants in research and 700 grants in university lecturing for periods ranging from three months to a full academic year. There are openings in over 100 countries and, in a few cases, the opportunity for multicountry research is available. Fulbright awards are granted in virtually all disciplines, and scholars in all academic ranks are eligible to apply.

Benefits include round-trip travel for the grantee and, for full-year awards, one dependent; maintenance allowance to cover living costs of grantee and family, tuition allowance, in many countries, for school-age children; and book and baggage allowance.

For more information, contact Tom Umphrey.
